MEHMET BATUHAN YILMAZ

I am a 2019 English Architecture graduate.
I can develop projects with React.js - Vue.js libraries.
Besides HTML5/CSS3, I am proficient in Tailwind and Bootstrap libraries.
I received Manual Testing Expertise and UX/UI Training.
I have knowledge of management and control systems such as Jira,
Confluence, Postman, Swagger and Figma, Adobe Graphic Design
programs.

- <u>Front-end Developer</u>
- <u>Manual / Automation Testing Expertise</u>
- <u>UI/UX Design</u>

I am actively looking for a job position.

PROFESSIONAL EXPERIENCE

- **Bab Iot Technologies - Front-end Developer**
  May 2022 - August 2022

An interface was designed for the user side of our
device, which we developed in the IOT
technological revolution, and I took part in
 UI / UX and Frontend coding in this process. I
worked in the company on a project basis.
 (Figma-Zeplin-Photohop-Vue.js-React.js)

- **Getasis IT Technologies - Front-end Developer**
  March 2022 - May 2022

It is the project that I took part in engineering
interface development studies at Schneider Electric
company as an outsource.

- **Papirus Digital - Jr. Frontend Developer**
  August 2021 - December 2021

In the company where I worked as a volunteer
intern, I provided visual-design and front-end
support.

- **Kodluyoruz & Patika.dev -**
  Front-end Developer Education Program
  September 2021 - November 2021

I took a training program and graduated from
Zemin Istanbul with team project work and got a
certificate.
